You can override the suggested price by entering a new price or a pricing code. Pricing codes allow you to use the price on established pricing sheets or to adjust the displayed price. Price overrides may be password protected.

Use the following codes to change the price to a fixed price from a pricing sheet.

Pricing to Use	Code	Price Sheet
Manufacturer's suggested list price	**L**	List
Suggested retail price	**G**	Red or Gray
Retail price	**Y**	Yellow
Best dealer price for non-reportable items	**N**	Green
Set value to set custom pricing against ($100)	**P**	Pink
Lowest non-reportable, non-rebateable price	**J**	Blue
Store cost from the distribution center (password required for company owned stores)	**Z**	Cost
Usual price sheet pre-selected for customer profile	**U**	Usual

Use the following codes to adjust the displayed price.

Adjust Pricing Displayed	Code
